OUTSTANDING FEATURES

RUST-PROOF

The outer body is made of engineering plastics assuring you years of rust-free and non-corrosive operation.

SAFETY VALVE

A heavy duty high pressure safety valve automatically releases excess pressure from the tank, thus preventing pressure build up in the inner tank

6.5 BAR TEST PRESSURE (STD Tank Model)

The inner tank is built sturdily with highest quality stainless steel SS 304 grade.

8.5 BAR TEST PRESSURE (HG Tank Model)

The inner tank is built sturdily with highest quality stainless steel SS 304 grade. Hence it can withstand high water pressure, specially suitable for hi-rise buildings
